

Information on the results of the incremental capacity auctions at IP Reintal

We hereby publish the aggregated results of the incremental capacity auctions at IP Reintal run on the PRISMA Platform on July 4, 2022.

Offer Level I

Gas year	Offered capacity (kWh/h/year)	Booked capacity (kWh/h/year)
2028/29	2 114 910	0
2029/30	2 114 910	0
2030/31	2 114 910	0
2031/32	2 114 910	0
2032/33	2 114 910	0
2033/34	2 114 910	0
2034/35	2 114 910	0
2035/36	2 114 910	0
2036/37	2 114 910	0
2037/38	2 114 910	0
2038/39	2 114 910	0
2039/40	2 114 910	0
2040/41	2 114 910	0
2041/42	2 114 910	0
2042/43	2 114 910	0

Offer Level II

Gas year	Offered capacity (kWh/h/year)	Booked capacity (kWh/h/year)
2028/29	7 553 250	0
2029/30	7 553 250	0
2030/31	7 553 250	0
2031/32	7 553 250	0
2032/33	7 553 250	0
2033/34	7 553 250	0
2034/35	7 553 250	0
2035/36	7 553 250	0
2036/37	7 553 250	0
2037/38	7 553 250	0
2038/39	7 553 250	0
2039/40	7 553 250	0
2040/41	7 553 250	0
2041/42	7 553 250	0
2042/43	7 553 250	0

The sum of the net present value of the binding bids of the network users is 0, thus the economic test of GCA as well as NET4GAS is negative; the project is economically not viable. With this, the binding incremental capacity procedure between Austria and the Czech Republic (published on May 3, 2022 and May 4, 2022 respectively) ended unsuccessfully, without any capacity allocation.
