INFORMATION REGARDING TRU SERVICE

The Czech and Austrian regulatory authorities together with the Czech and Austrian TSOs NET4GAS and Gas Connect Austria have finished the consultation process on CZ-AT market integration (the so-called TRU service). A Q&A paper as well as a description of an implementation concept for the TRU service are available under at the ERO website:

www.ero.cz/en/-/cz-at-integrace-trhu-s-plynem-vyporadani-verejneho-konzultacniho-procesu

The TRU service aims to connect Austrian and Czech wholesale markets. In fact, this service will enable shippers to enter Austrian market (AT VTP) directly from Czech market (CZ VOB) and vice versa in “one step”.
