

CAPACITY BOOKING PLATFORMS

In line with the Commission Regulation (EU) No 984/2013 establishing a Network Code on Capacity Allocation Mechanisms in Gas Transmission Systems (NC CAM), capacities at the cross-border interconnection points of the NET4GAS transmission system shall be allocated via capacity booking platforms starting from 1 November 2015.

For the interconnection points Brandov – Stegal, Brandov – OPAL, Hora Svaté Kateřiny – Sayda, Hora Svaté Kateřiny – Olbernhau, Lanžhot and Waidhaus, the capacity will be allocated via the PRISMA platform (<https://platform.prisma-capacity.eu/>).

For the interconnection point Český Těšín, the capacity will be allocated via the GAS-SYSTEM S.A. platform (<https://aukcje.gaz-system.pl/>).

First bookings via the platforms will be organized in standard daily capacity auctions. Bidding rounds for the gas day of 1 November 2015 are expected to be launched on 31 October 2015 at 16:30 CET.
