# 2018 Financial Highlights and 2019 Outlook

Strong delivery of 2018 full-year financial results

## 2018 Highlights

- Consolidated EBITDA<sup>1)</sup> of CZK 6.4 billion posted in 2018, up c. CZK 0.2 billion or c. 3.5% year on year (yoy) and ended up at upper end of our internal outlook range and target (Budget).
- Transit revenues in 2018 were characterized by high utilization of our long-term transit contracts and a solid performance in short-term transit sales.
- Transport revenues declined in 2018 by c. CZK 0.5 billion yoy due to one-time effects related to 2016/17 transmission corrections and lower domestic entry capacities; yet impact shall be recovered in 2020 via existing regulatory mechanisms.
- Operating costs were reduced by nearly CZK 0.3 billion predominantly due to active austerity measures, operational excellence, but also timing effects.
- Cash Flow generation remained strong in 2018 with Net cash flows from operations at c. CZK 4.5 billion.
- Extension of CZK 2.6 billion bond's maturity from year 2021 to 2025.

## Capacity4Gas<sup>2)</sup>

- Based on significant long-term gas market demand for additional capacity, new cross-border capacities were successfully marketed through PRISMA capacity auction held on March 6, 2017.
- N4G continues to embark on relevant gas infrastructure build-out in the CR which is set out to culminate between 2019-2020.
- Project fully financially backed by shareholders' equity injections (c. EUR 60 million of fresh equity already received between 2017-2018).

## 2019 Outlook

- Transit revenues expected to remain of the same order of magnitude as in 2018.
- Regulated transport revenues likely to rise yoy as a result of adverse one-time effects in previous year and partly revenue cap adjustments from 2017.
- Overall operating costs expected to see a limited increase above previous year's mark largely on account of staff costs in relation to Capacity4Gas investment, but associated own work capitalized should have partly offsetting effect.
- Significant increase in growth CAPEX expected as a result of Capacity4Gas and related investments into existing infrastructure.
- Capacity4Gas investments continue to be funded by the sole shareholder.
- Company financing strategy envisages retention of BBB rating.

## Footnotes

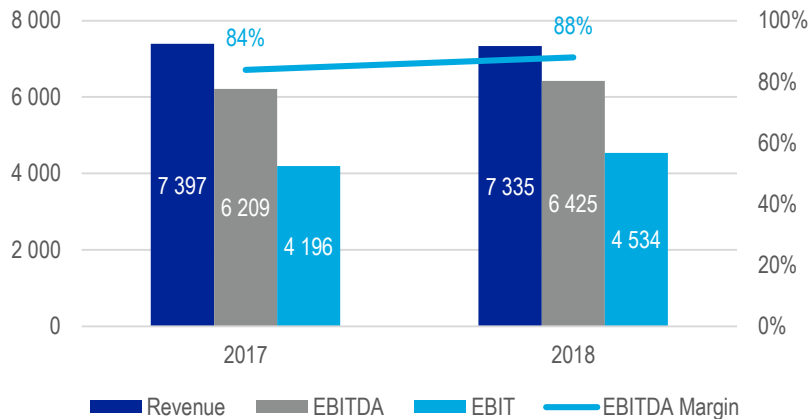

- 1) EBITDA = Earnings Before Interest, Taxes, Depreciation and Amortization; in the material derived as: Operating profit (EBIT) plus depreciation and amortization
- 2) Relates to construction of gas infrastructure aimed at increasing cross-border capacity between German, Czech and Slovak market areas
