

**Demand assessment report
for incremental capacity between the Czech
Republic – NET4GAS and Germany – *GASPOOL*
*where no non-binding demand indications
were received***

2017-07-27

This report is a joint assessment of the potential for incremental capacity projects conducted by

NET4GAS, s.r.o.

Table of contents

A.	Non-binding demand indications	- 4 -
B.	Demand assessment	- 5 -
i.	Expected amount, direction and duration of demand for incremental capacity	- 5 -
C.	Conclusion for the (non)-initiation of an incremental capacity project/process	- 6 -
D.	Fees	- 7 -
E.	Contact information	- 8 -

A. Non-binding demand indications

This analysis includes non-binding demand indications received within 8 weeks after the 6 April 2017 – entry into force of REGULATION EC 459/2017.

The involved TSOs NET4GAS, ONTRAS and GASCADE have not received any non-binding demand indications for firm capacity at the interconnection points between the entry-exit system of NET4GAS and the entry-exit system of GASCADE and ONTRAS for any future period.

Therefore, the amount of zero for non-binding demand indications has been used as a basis for this demand assessment.

B. Demand assessment

i. Expected amount, direction and duration of demand for incremental capacity

The received demand indications within the current incremental process between the entry-exit system of NET4GAS and the entry-exit system of GASCADE and ONTRAS are zero. Therefore, the potentially available capacity (i.e. technical capacity which is not yet booked in the long term) for the requested period is currently sufficient to cover potential future need for capacity.

C. Conclusion for the (non)-initiation of an incremental capacity project/process

According to the assessment result of the non-binding demand indications under point B, no demand levels for incremental capacity need to be developed and hence, no incremental capacity project will be initiated by the involved TSOs.

Based on the aforementioned decision, no technical studies for incremental capacity projects will be conducted.

D. Fees

NET4GAS

NET4GAS did not introduce a fee for the evaluation and processing of non-binding demand indications.

GASCADE

GASCADE did not introduce a fee for the evaluation and processing of non-binding demand indications.

ONTRAS

ONTRAS did not introduce a fee for the evaluation and processing of non-binding demand indications.
